

/help

OUR GOALS

1 ESTABLISH THE CHARITY

Phase 1 is all about launching and creating. We want to have frequent community events, launch community servers, launch our shop grow our reach, start getting donations, hire more trustees and volunteers, and finally, register /help.

2 GROWING /HELP

Phase 2 is about growth. We want to have a professional website with all of the information and functions we need. As well as that we want to get more community involvement through charity streams and fundraisers, to giveaways and partnerships.

3 ABOVE AND BEYOND

Phase 3 is about aspirations and shooting for the stars with our goals. We want to hire paid staff like counselors and career advisors that gamers can use for free! We want to create career opportunities, such as apprenticeships, internships, and placements tailored towards using the skills gamers have naturally developed. Then we want to get partnerships with big streamers/brands so we can have crisis housing around the globe.
